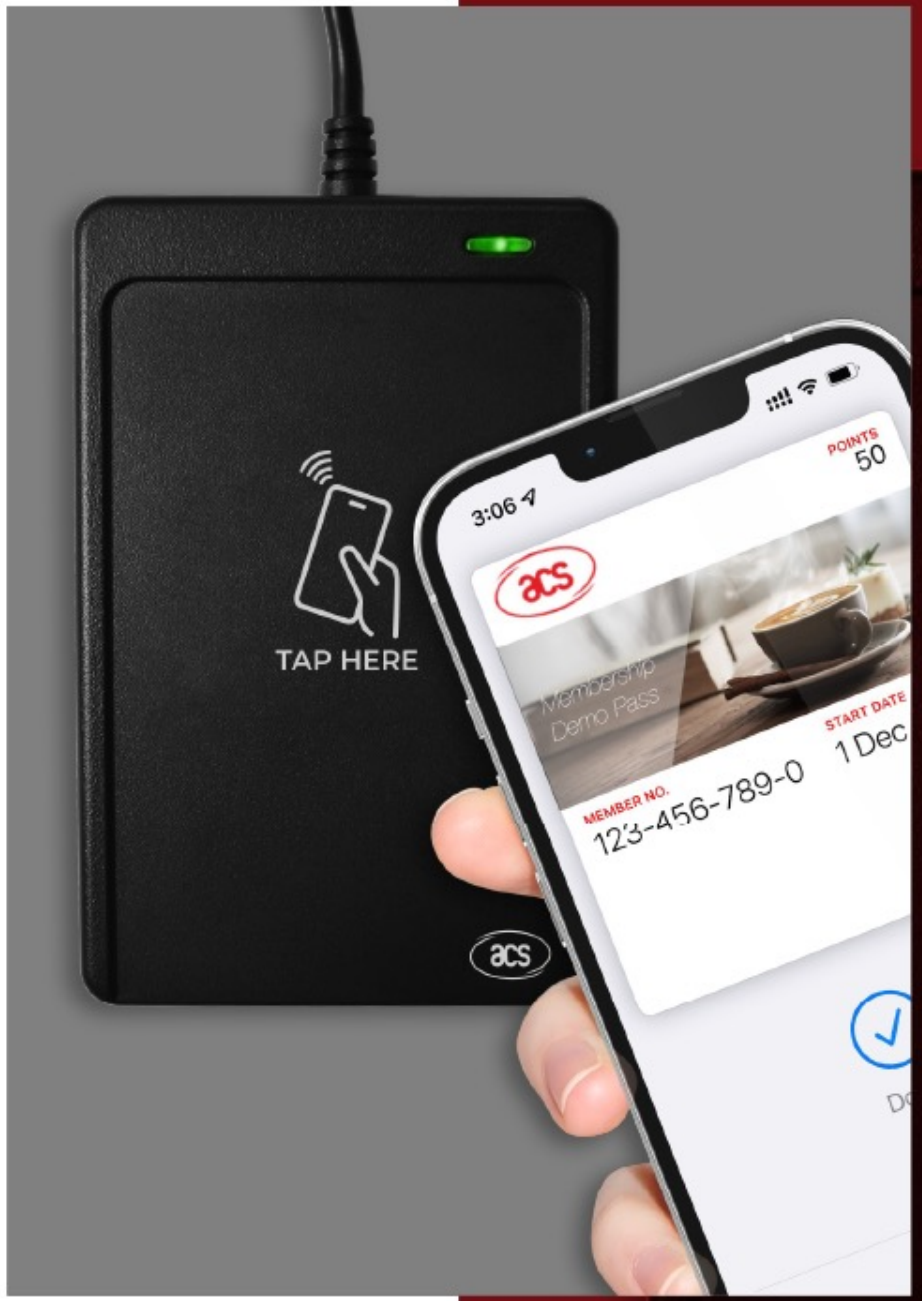
FINALIST -

BEST NEW PRODUCT

WALLETMATE



Presented by

Tommy Wong

Product Marketing Manager

Advanced Card Systems Ltd.

SOLVING

DAILY HASSLES

How many cards do you have in your wallet?

As users, we spend time everyday searching for the right card
As card issuers, we pay to produce and distribute those physical cards

MOBILE WALLET

The game changer.

Carry one thing. Everything.

Keep all your credit/debit cards, driver's license, state ID, transit cards and event tickets in one place

Secure access

Enhance wallet security with mature iOS and Android security elements

Easy Card installation

Scan a QR code and install in one click

WALLETMATE

Mobile Wallet NFC Reader
Apple VAS & Google Smart Tap Certified

Ultimate Cardless Experience

Support various digital passes (iOS/Android)

Auto-retrieval of passes

The host terminal could select a specific wallet pass from the user's mobile through a unique merchant ID

Secure transactions

LTPK stored in secure element for Google Smart Tap technology

Easy System Integration

Plug-and-play
Sample codes and wallet passes development guidelines for easy integration with POS/Identity/Security systems

DIGITAL TRANSFORMATION
